

July Environment Circle

Wed 28 July | 4 - 5.30pm

Topic: How to
Save on Home Energy Bills,
be Comfortable, and
get your Home off Fossil Fuels

Speaker: Tim Forcey

\$5 (includes drinks and nibbles)

(+\$15 SCC Annual Registration Levy)

About your Presenter:

Tim Forcey trained as a chemical engineer and worked for many years in the oil and gas and petrochemical industries with Exxon Mobil, BHP, and others.

In more recent times, Tim undertook renewable energy research with the University of Melbourne Energy Institute... where he showed how Australians could **save money by heating with their reverse cycle air cons instead of using gas.**

As you will hear, in order to spread the word about these useful home energy economics, Tim went on to found and co-administer the 26,000 member Facebook group '**My Efficient Electric Home**'.

Tim also assists individual Victorians in their homes as a home comfort and energy advisor."

Informative. Thought-provoking. Engaging Discussions.

For people who care about our environment and want a better understanding of our natural world.
